The report of the Committee on Resolution brought on a triangular contest which turned the convention into a mob. The report of the committee ignored State issues entirely. It indoses the Administration of President Harrison, approves the nomination of Harrison and Read; declares the National platiorm to be broad emough for a basis in the coming contest, and points with special pride to its attitude on the tariff issues, the silver problem, the temperance question and its demand for a pure and untrammeled ballot. It denounces the platform of the National Democratic party for its declaration in favor of the aboliton of the national tax on the issue of the State banks as an attempt to reinstate "wild cat money." G. W. French, of Davenport, and J. A. M. Collins offered a minority report in favor of county option. 3,800 MEN IDLE.

The Carnegie Steel Works at Homestead Shut Down. A great Strike Possible.

Persaugon, Pa., July 1.-Yesterday every department of the immense Carnegie steel works at Homestead was shut down, throwing about 3,800 men out of employment, The men received notice of the shut-down quietly, as they had been fully prepared for t by the following notice posted up in many places throughout the great works:

"All employes of the several departments will re-port to the office on Saturday heat, July 2, when they will receive their full pay."

This notice is simply a notice of discharge.

It has been the custom of the Carnegies, and all other mills, to discharge their men on the night of the expiration of the yearly centract. The men had declared positively that they would strike at the date of the expiration of the yearly contract. This term of expiration was to occur either at 6 o clock this morning, or 6 o clock this evening, just as the authorities decladed. At midnight the firm cleverly forestalled the men, and flatly declared a shut-down. Instead of being a strike then at the great steel works, the action of the firm has made it a lock-out. This rather puts the men on the defensive.

The Amalgamated Association has not yet declared a strike. They had accepted the offer of the firm, and instead of declaring a strike at the date fixed by the firm, June 24, the men had waited until June 30 before their final move was made. Of course the action of the firm in closing all departments — with the possible exception of the beam department—forces a lock-out instead of a strike. As the Amalgamated has disbanded its annual session, there is no telling when the men will be in a rosition to declare a It has been the custom of the Carnegies,
